## ANNUALLY, STARTING NOW: ANTICIPATION OF LOVE FOR DETAIL

The annual BRAWA Product Overviews for H0 and N, as well as the new accessories catalogue for both gauges, are now available from your specialist dealer.

With the current product overview, BRAWA now offers you a complete round-up of all locomotives, passenger coaches and goods wagons. Due to a new layout and separation according to gauge, our printed material is much more compact, which benefits you. The issues for H0 gauge and N gauge are published annually and replace the main catalogue, which was previously

reissued every two years. In addition, the accessories catalogue offers you a complete overview of all accessory products in gauges H0 and N. And in addition to the new product overviews, the BRAWA New Items Brochure will of course be published at the beginning of each year as usual.

Detailed information on the individual models can be found on our website, which also offers you numerous other options, from product-specific downloads to videos and sound files through to recommendations for putting together train combinations in a historically accurate manner.

## REAL ADDED VALUE: THE BRAWA WEBSITE

- 01 Comprehensive information on the details of the model variants with explanation of all icons
- 02 Information on awards, honours and distinctions received by models
- 03 Detailed descriptions of the model details and additional functions of the digital version
- 04 Functional overview of the model variants
- 05 Convenient "Goto menu" for faster navigation
- 06 Operating instructions with spare parts lists and function overviews for download
- 07 Information about and photos of the real stock our models are based on
- 08 Clearly arranged lists of additional models of the same series
- 09 Informative product and workshop videos
- 10 Product recommendations for assembling trains in a historically accurate manner
